MANHART MH8 600

SPECIFICATIONS

ENGINE

4.4-Litre V8 Biturbo Engine (N63)
8-Speed Automatic Transmission

POWER

Original: 530 HP & 750 Nm
Tuned: 621 HP & 890 Nm
MANHART MHtronik Powerbox
Or:
MANHART ECU Remapping

EXHAUST

MANHART Stainless Steel Exhaust System
with Valve Control
MANHART Downpipes Race
without Catalytic Converters*
4 x 100 mm MANHART Carbon
or Ceramic Coated Tailpipes
MANHART OPF/GPF Deleter*

*No TÜV Approval, Only for Export

SUSPENSION

MANHART Lowering Springs by H&R (30 mm)
MANHART Suspension Tuning

WHEELS

MANHART Concave One in Silk Matt Black
FA: 9 x 21" (ET30 255/30 ZR21)
RA: 10.5 x 21" (ET40 295/25 ZR21)
Rim Colour Upon Request Individually Configurable
MANHART Rim Decoration in Gold

BRAKES

Stock Brakes, Individually Tuning Options
Available Upon Request

INTERIOR

MANHART Carbon Steering Wheel Spokes
MANHART Carbon Paddle Shifters

EXTERIOR

MANHART Carbon Front Spoiler
MANHART Carbon Rear Spoiler
MANHART Carbon Rear Diffuser
MANHART Decal Set

MANHART EXHAUST SYSTEM

The M850i is not a quiet pedal. Thanks to the built-in MANHART stainless steel rear silencer, the M850i sets itself apart from the M850i series in terms of sound. Visually, the sonorous V8 sound is announced by 4 x 100 mm tailpipes, which can be configured in either carbon or ceramic.

MANHART WHEELS & EXTERIOR

The differentiation from the series is made by MANHART carbon applications at the front and rear of the vehicle. The front of the MH8 600 is adorned by the MANHART carbon front spoiler which gives the MH8 600 more dynamics and aggressiveness. The MANHART carbon rear diffuser and the MANHART carbon rear spoiler are mounted at the rear of the vehicle. All these carbon parts make the MH8 look deeper and wider. The MH8 600 stands on 21" MANHART Concave One aluminium rims in silk matte black to match the colour of the car. Optionally the Concave One rims can be accentuated by a golden ring on the rim edge.

info@manhart-performance.de

All facts concerning driving performance are approximations. They depend on vehicle-specified details such as vehicle type, equipment, curb weight, rear axle ratio, wheel-tire combination, transmission design and aerodynamic equipment of the individual vehicle. Information about performance increases and/or performance kits are average values. A margin of +/- 5% in performance gains should be taken into consideration. Information about the overall performance of the stock engines changed due to an increase in performance and/or performance kits is based on the manufacturer's information in the vehicle registration document, which in turn can deviate +/- 5%. MANHART Performance assumes no liability for additional under-performance of factory engines. The technical data can be changed at any time without notice.
