#### POWER

Original: 650 HP & 850 Nm  
Tuned: 810 HP & 1060 Nm  
MANHART ECU Remapping  
Or:  
MANHART MHtronik Powerbox

#### EXHAUST

MANHART Stainless Steel Exhaust System with Valve Control  
MANHART Downpipes Sport with 200 Cells Catalytic Converters\*  
MANHART Downpipes Sport with 300 Cells HJS Catalytic Converters\*  
MANHART Stainless Steel OPF-Delete Pipes\*  
4 x 100 mm MANHART Carbon or Ceramic Coated Tailpipes (Red Coloring Upon Request)

\*No TÜV Approval, Only for Export

#### SUSPENSION

MANHART Lowering  
MANHART Suspension Tuning

#### WHEELS

MANHART Concave One in Silk Matt Black  
FA: 10,5 x 23" ET25 (285/35 ZR23)  
RA: 12 x 23" ET20 (325/30 ZR23)  
Rim Colour Upon Request Individually Configurable

#### BRAKES

Stock Brakes, Individually Tuning Options  
Available Upon Request

#### INTERIOR

MANHART 7-piece Carbon Interior Package

#### EXTERIOR

MANHART Carbon Bodykit by TopCar Design  
MANHART Decal Set

## MANHART EXHAUST SYSTEM

The sound of the Urus stands out clearly due to the exhaust system upgrade. The built-in MANHART sports exhaust system with 4 x 100 mm carbon tailpipes produces a brute sound that clearly sets itself apart from that of the Urus series.

## MANHART CONCAVE ONE

The MANHART Urus 800 is standing on 23" MANHART Concave One forged wheels, matching the silk matte black design.

## MANHART VISUAL HIGHLIGHTS

Differentiation from the series is achieved through carbon applications on the front and rear of the vehicle. The front of the Urus is adorned with a carbon front spoiler, which gives the Urus more dynamics and aggressiveness. A carbon rear diffuser and a carbon rear spoiler were mounted at the rear of the vehicle. The TopCar carbon bodykit makes the already shy Urus an absolute eye-catcher. The carbon theme continues in the interior. MANHART Performance offers a 7-piece carbon interior package for the Lamborghini Urus. The package features carbon door panels and dashboard parts.

All facts concerning driving performance are approximations. They depend on vehicle-specified details such as vehicle type, equipment, curb weight, rear axle ratio, wheel-tire combination, transmission design and aerodynamic equipment of the individual vehicle. Information about performance increases and/or performance kits are average values. A margin of +/- 5% in performance gains should be taken into consideration. Information about the overall performance of the stock engines changed due to an increase in performance and/or performance kits is based on the manufacturer's information in the vehicle registration document, which in turn can deviate +/- 5%. MANHART Performance assumes no liability for additional under-performance of factory engines. The technical data can be changed at any time without notice.
